Scarborough Health Network, The Scarborough General Hospital  
Child & Adolescent ADHD Clinic  
Ettsa Papalazarou

September 2019  
4 or 4.5 or 5 days per week

As part of Scarborough Health Network’s, Child and Adolescent Program, the ADHD Clinic serves youth up to their 18th birthday, who are experiencing problems related to ADHD and co-occurring conditions.

We provide short term consultation services, including:

- assessment and diagnosis
- medication consultation
- parent and teacher psycho-education
- family and individual therapy (on a case-by-case basis)
- consultation and liaison with schools and other agencies

Schedule: Start date: Wednesday September 11, 2019

- Student will attend practicum 4 or 4.5 or 5 days/week, to be agreed upon with field instructor.
- Student will complete a total of 77 days, or 539 hours.
- Practicum will finish in January or February, depending on number of days/week.

Requirements:

- The FIFSW immunization form is required for all PHA sites.
- N95 Respirator/Mask Fitting
- Influenza Vaccination (Flu shot)
- Police Reference/Vulnerable Sector Check
- Comfort working with the population being served
- Comprehensive report writing and documentation

Location: 2425 Eglinton Avenue East, Suite 301

This practicum is suitable for students in the Children and Their Families OR Mental Health and Health fields.
