Welcome to Summer Practicum at the Factor-Inwentash Faculty of Social Work!

SWK4701 and SWK4702 are courses where field instructors provide MSW students with the opportunity to integrate theory with practice through education and evaluation.

This Practicum Guidebook is meant to accompany students and field instructors during their practicum. It includes a suggested practicum model (Bogo, 2010) that can be used as a visual aid for conceptualizing the stages of the practicum. It also includes a milestones section. Using a week-by-week format, it suggests the milestones that should be completed at each stage of the practicum. A timesheet is provided by the Practicum Office to facilitate the progress of student activities as well as supervision with the field instructor.

Integrated within the milestones are direct examples of positive statements derived from the Practice-Based Evaluation (PBE) Tool (Regehr, Bogo, & Regehr, 2011), which both students and field instructors complete at the mid- and final-points of the practicum. We acknowledge the varied experiences that students bring to the practicum and therefore value the distinct nature of their continuous professional growth. These statements function as benchmarks for students to foster self-reflection throughout their practicum.

Principles of Equity, Diversity and Inclusion (EDI) are integrated throughout the Guidebook. This Guidebook also contains links to required forms, documents, important resources, and Practicum Office contact information. We hope you find it helpful.

**Beginning** ➔ **Middle** ➔ **End**

Note: **Protected supervision** occurs one hour per week. Ongoing observation, feedback, and evaluation of the student’s progress occurs throughout the phases.

**Reference:** Bogo, M. (2010). *Achieving competence in social work through field education.* University of Toronto Press.
The purpose of **protected weekly supervision for one hour** is to offer students a confidential space for reflection on their progress in developing the FIFSW Practicum 1 or Practicum 2 competencies. During supervision, students should have the opportunity for: critical self-reflection, analysis of their practice, consultation regarding service users, and development of their identity as future professionals. Supervision serves as a platform for students and field instructors to collaboratively explore strengths, address challenges, identify areas for growth, and devise strategies for change within the framework of a mutually respectful supervisory relationship.

For supervision to be effective, it is imperative for field instructors to regularly engage in direct observation and evaluation of a student’s work and for the student to inform field instructors of their activities and progress. This practice is essential for both teaching and evaluation purposes. The goal is to progressively lead students to independent practice based on demonstrated competence throughout the practicum.
Pre-practicum

Field instructors

Schedule meeting with FFL to review Learning Contract

Learning Contract: Direct | Indirect

Midterm: Direct | Indirect

Checklist 2: Practicum Learning and Reflection

Final Evaluation: Direct | Indirect
The Timesheet offers an organized approach for students to track their practice and supervision hours on a weekly basis while having an at-a-glance view of the practicum schedule dates, deadlines, and time management policies.

Students are to send their field instructor the Practicum Timesheet for review on a bi-weekly basis to ensure they are meeting the required hours for practicum. The FFL will request to review the Practicum timesheet only in cases where there is a dispute concerning the practicum hours. Students should contract with their field instructor when to make up missed practicum hours and notify their FFL.

**P = practice hours**, when you are completing practicum work (do not include lunch)

**FI = supervision hours**, when meeting for formal supervision (minimum of one hour per week)

Insert a numerical value under P and FI for each practicum day (ensuring it totals 21 hours a week). The FI value can remain 0 on days where formal supervision does not occur. We understand that some students may contract different / flexible schedules with their field instructors, the Timesheet is developed with the standard practicum schedule in mind.

Prior to starting their practicum, students will receive an Excel spreadsheet containing the Timesheet from the Practicum Office.
The purpose of the FFL-Student meeting is to provide students with information, support, and consultation around the practicum process.

Field instructors are encouraged to participate in the Professional Development series designed to equip them with pertinent details regarding these milestones.

Outside of this session, FFLs are available to students and field instructors, either individually or together, for confidential assistance and problem solving for concerns and challenges that may arise in the practicum.
